Quick Guide

- 1. Assemble** the frame and place the plants:
www.naava.io/manuals
- 2. Fill** the watertank

Remove the plug either from the top of the tank or on the front panel. Fill until water reaches 5 cm/2" from the edge. Remember to put the plug back!
- 3. Require** Naava app access from your Naava service provider and go to <https://naava.app>

With the Naava web application you can see how your Naava is doing wherever you are. Monitor the water level, get an automatic reminder when your Naava needs water, and see how much natural air has been produced daily.
